Corporate Overview

Local Presence, Global Focus

CXV Global delivers technology leading solutions in the areas of automation, machine vision, robotics serialisation, digitisation and resourcing to high end R&D and Manufacturing sites.

Customers trust CXV Global to work in close partnership with their multinational R&D and manufacturing teams to deploy innovative technology solutions that meet their operational and supply chain goals in a highly responsive and commercially measurable way.

This enables our customers to meet the global demands for their products in an operationally streamlined, quality and compliant way.

300+ Engineering Focused Staff

8 offices (5 countries)

24/7 Production Activities across 10 time zones

30+ Years Industry Experience

Multi-Site, Multi-National, Multi-Lingual Scale & Capability

Serving Life Sciences, Automotive, Logistics, Food and Beverage, Cosmetic and other sectors

100+ Blue Chip Clients

- Newton, PA
- Chicago, IL
- Corona Del Mar, CA

- Cork, Ireland
- Northamptonshire, UK

- Mechelen, Belgium
- Göteborg, Sweden
- Northamptonshire, UK

Our Core Capabilities

Manufacturing Automation

- Packaging Line Automation
- OEE/Line Efficiency

Serialisation

- Anti-Counterfeiting Solutions
- Meeting Global Regulatory Requirements
- Track and Trace in the Supply Chain

Digitisation of R&D and Manufacturing

- Extended Reality (XR) Technologies
- Artificial Intelligence (AI) - Machine and Deep Learning
- Big Data and Unified Analytics
- Line Clearance
- Biometric Access Control
- Advanced Robotics/Cobots
- Virtualisation
- Digital Work Instructions

R&D Automation

- Data Management and Integration
- Laboratory and Clinical Environments

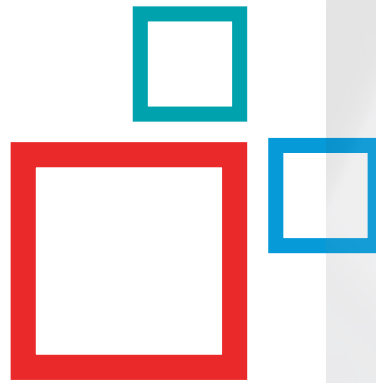

Machine Vision and Robotics

- Vision Products and Application
- 3D Vision Solutions
- Vision Providers
- Robotics

Professional and Managed Services

- Managed Service Provision
- Project Resourcing
- Customer Service Packages
- Training and Development Solutions
- On Site Engineering
